70 Associate in Applied Science Pathways and Certificates offered

65 Associate in Science Pathways

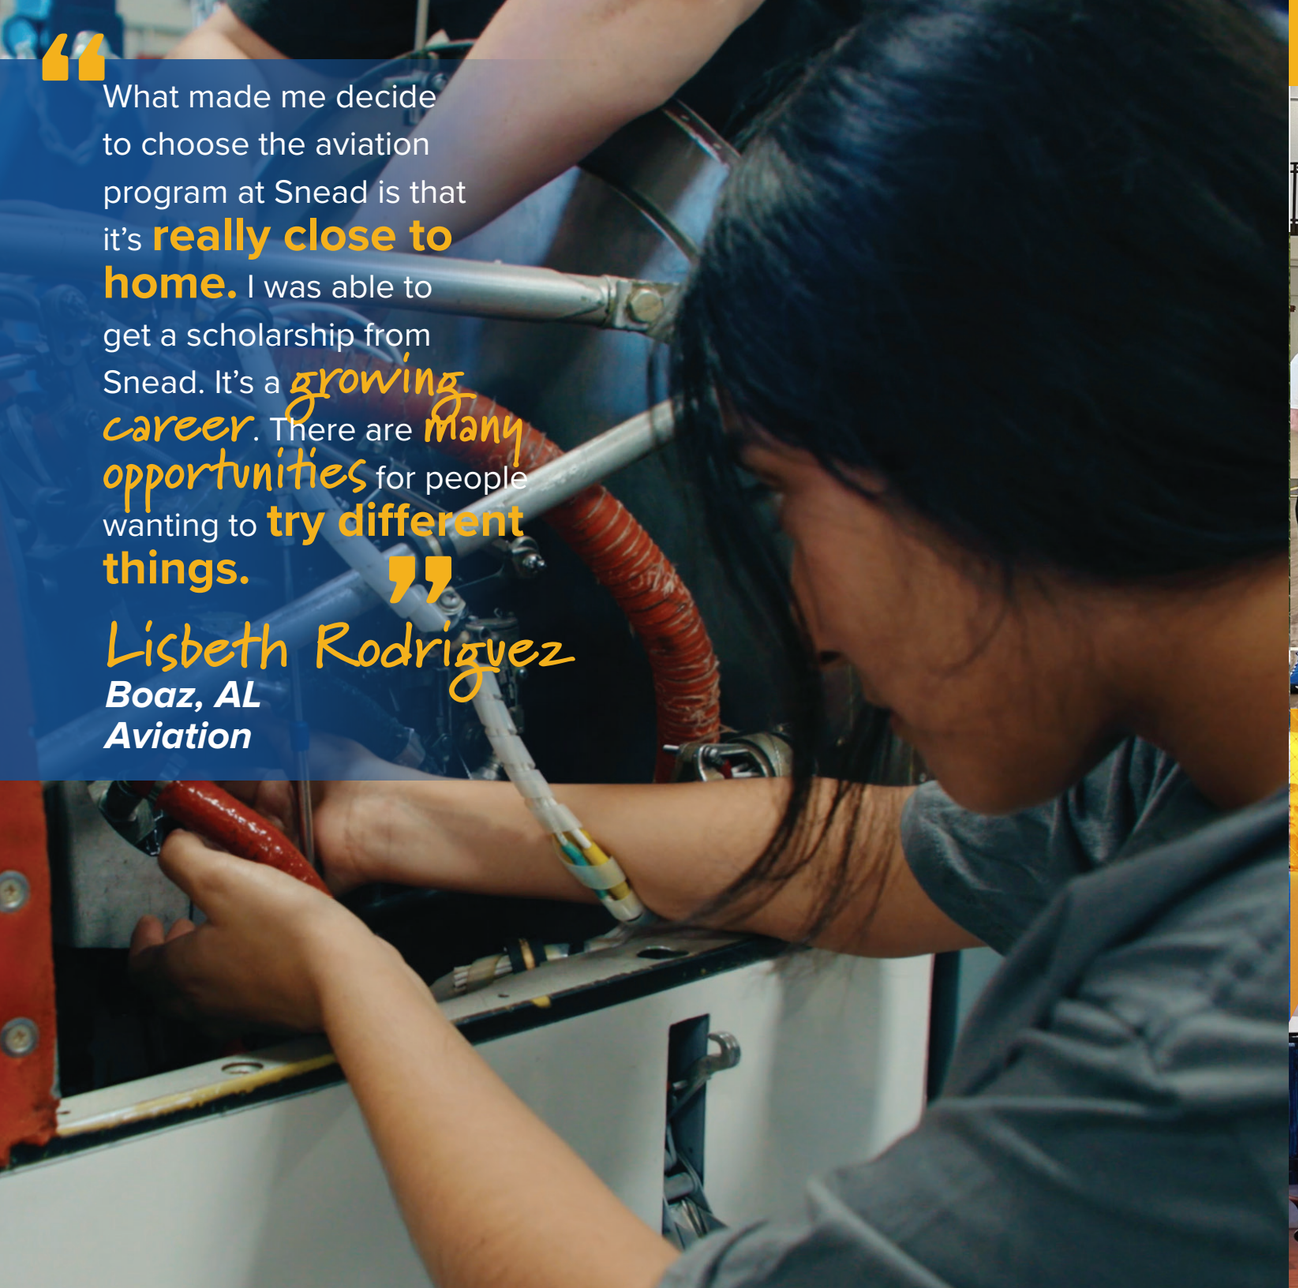

9 Fine Arts opportunities for student involvement

10 Athletic Teams

21 Average class size

Located in the Heart of Sand Mountain

SNEAD STATE™

“What made me decide to choose the aviation program at Snead is that it’s **really close to home.** I was able to get a scholarship from Snead. It’s a *growing career*. There are *many opportunities* for people wanting to **try different things.**”

Lisbeth Rodriguez
Boaz, AL
Aviation

Pathways to an Associate in Science (AS Degree)

The **ASSOCIATE IN SCIENCE** degree program is for students who wish to continue their education by pursuing a Bachelor's or higher degree after graduating from Snead State. With the benefit of articulation agreements and the Alabama Transfers program, students can choose the right courses that will transfer to a four-year institution and will apply to their degree.

BUSINESS

- Agricultural Business and Economics
- Apparel and Textiles
- Business
- Business Education
- Health Informatics
- Health Services Administration
- Public Administration
- Public Relations

FINE ARTS

Once I came here and toured, I was automatically like, **"This is the place."** Especially when I met my teammates on the tennis team, they told me how nice the instructors are, and that was really what made me want to come. Now that I'm a student at Snead, I feel *more complete.* **It feels like home."**

Aleece Hollis
Tuscumbia, AL
Snead State Tennis Team

"My parents **don't have any** sort of education. They didn't go a single year of school, and since I'm the *first generation* in my family to graduate high school, I wanted to carry that on. I've been starting to actually **smile more** ever since I started (at Snead State) being around all of these people. I feel like I've grown out of the negative person I used to be. It's opened up a door for me *to be a better person* and to *set an example for others*, not just for my family or my siblings but for students as well.

Mis padres **no tienen ningún** tipo de educación. No asistieron ni un solo año a la escuela, y como soy la *primera generación* en mi familia en graduarse de la preparatoria, quise continuar con ese legado. He empezado a **sonreír más** desde que comencé (en Snead State), rodeado de toda esta gente. Siento que he dejado atrás a la persona negativa que solía ser. Esto me ha abierto una puerta *para ser una mejor persona* y para *ser un ejemplo*, no solo para mi familia o mis hermanos, sino también para otros estudiantes."

Student Experience

Make the most of your college years by getting involved

College is more than the knowledge and training you learn in the classroom. It's also about the experiences our students have out of the classroom. It's where they thrive in the limelight and behind the scenes. They learn more about themselves and their place in the world. This is why Snead State invests in the student experience through organizations, programs, and activities.

There are traditions to look forward to each year - S-Day, Welcome Week, Club Rush, Homecoming – and our students step up to give back to our community by volunteering with organizations like the Miracle League, Shepherd's Cove Hospice, American Heart Association, etc.

Study Abroad

Snead State offers an opportunity for students to see the world, experience history, and learn life skills through its Study Abroad program. Throughout the experience, students will not only see historic sites but experience the culture, food, education, and political structure of European countries. They will have the opportunity to connect historic items and sites to their curriculum of study at Snead State. In the past, participants in the program have visited London, Paris, Rome, Munich, Venice, and Zurich.

Assisting faculty and staff from the college will be EF Tours, who has focused on student education since 1965, working with over 600 schools with programs in 115 countries. They ensure a safe and secure experience for the students while they are pursuing academic excellence. In preparation for their travel abroad, students will enroll in a one-hour credit course that familiarizes them with the cultures and countries they will visit.

> *Being part of the 2023 Study Abroad group to London, France, and Italy broadened my perspective on the world. With Dr. Kitchens' guidance, we explored both academically and personally. This trip will stay with me.*
>
> Kaleb Driskill

> *Studying abroad allowed me to experience so many different cultures and pieces of history firsthand. It gave me the opportunity to travel to places that many people never get to see, broadening my perspective in ways I never expected. Overall, it has been an incredible and unforgettable experience.*
>
> Sarah McCullars
